Fair and very hot

We have had three excessively hot days. The beaches are crowded and all cars seem to be headed toward the ocean.

Those who drove over the Sudbury high ways, with the Inn as an objective were well repaid.

Guests remarked on the coolness of the hall and dining room and the food and service received great praise.

Mrs Bennett, our South west school teacher helped as Hostess today

She has been enjoying a two weeks vacation after a successful school year.

We are glad to have her with us.

Many more guests than Monday usually brings.

Now that schools and colleges are closed, families are seeking rest and recreation at their summer homes

Naturally the Inn is rarely omitted in their travels to and fro.

Mrs Lyon sent down the nicest mess today - Mr Edsels Ford's children accompanied by their grandmother, Mrs Clay, and several attendants are to be with us tomorrow, on their way to Maine.

This visit is always an event. We offer a hearty welcome.

The "family" arrived at noon. There were twelve in the party.

After luncheon each member enjoyed a rest period.

Late in the afternoon, Mrs Spicer called for the children, Josephine and Billy and with their governess drove to her delightful home to see Jackie, Mrs Spicer's little nephew.

Upon their return supper was served and before the old clock in the parlor struck six, they were again traveling toward their destination.

We trust they escaped the heavy shower. We all wish the family a very happy summer.

The "red, white and blue" is moving gracefully in the light breezes and once again we are thrilled with our flag - for which so many suffered and died.

Guests arrived very slowly and we at first thought felt that everybody had turned to the beaches. However - the day made a good showing. A delicious dinner was served from noon to 8 P.M.

Besides our usual Steak, Chicken and Lobster, the typical New England Fourth of July dinner of fresh salmon and green peas was served.

Several groups toured the Inn and everyone was grateful for the lower temperature.

An excellent record today in spite of the excessive heat.

Many visiting children, and many bus groups - all eager to see and hear everything.

We have now settled down to our usual summer crowds.

There are constant requests for a cold drink of water. I wonder if the various beverages concocted by our forefathers were half as refreshing as the clear cold water from the Mary Lamb pump.

"To the Editor of the Post:

"Sir—Last year quite a discussion was on in your column about the haying-time beverage called switchel, a New England invention. Would you tell us the formula of ingredients needed? It is haying time now and we would like to make some."

There is no "set" formula for switchel. As a rule it is water sweetened with molasses, and ginger and sometimes a little vinegar may be added; but the proportions vary to suit the taste of the persons drinking it.

In an older generation, sometimes a little New England rum would be added.

The accompanying article was found recently - "Switchel" was carried in tiny wooden barrels to workers in the field in the old days.

Each course was a picture in itself and the food most generous. It was in all most enjoyable.

The lovely flower garden is suffering from the continued sunshine and intense heat. Rain is badly needed for all forms of vegetation.

The four lines at the beginning of this article are as familiar to most of us as the "Mary Lamb" jingle - which is so often quoted by those who visit the original school mentioned in the rhyme.

It was a surprise to learn that our beloved Longfellow was the author of the lines first mentioned.

It is simply another proof of his human and lovable self.

an Hostess.

THAT HORRID LITTLE GIRL

There was a little girl, who had a little curl
Right in the middle of her forehead,
And when she was good she was very, very good,
But when she was bad, she was horrid.

National partiality has led English critics to assign these celebrated lines to Macaulay or Thackeray; but the only ground seems to be that either might have written them. Strangely enough, Sydney Smith has not been suggested, although they are quite in his manner. But a single fact is worth a hundred surmises. The man who wrote the immortal verse was our own Henry Wadsworth Longfellow.

T. F. of Brooklyn, in English Notes and Queries, credits Longfellow. E. Marston relates that a well known American lady told him that when she was a very little girl, Longfellow took her on his knee and repeated the words; only she made him say, "dood" and "dirl," which one hopes he did not, and "naughty" instead of "bad."

John True Loomis of Washington quotes an extract from Blanche Roosevelt Tucker's "Home Life of Longfellow." Mrs. Tucker says she once quoted the quatrain innocently as a specimen of persistent rubbish, whereupon Longfellow said, "Why those are my words, are they not, Annie?" whereupon Annie, the youngest daughter, said, "Why, of course, papa, that comes in your nursery collection. Don't you remember,' et cetera.

That ought to settle it, and incidentally to dispose of the claims of admirers of Thomas Bailey Aldrich.

VANDERBILT YACHT ARRIVES HERE

The million dollar motor yacht Alva, owned by W. K. Van derbilt of New York, as it rests at pier 2 in East Boston today. A cradle which will receive a 12-passenger plane e xpected to arrive today from California may be discerned on the af ter deck.

Palatial Craft Here to Load New Seaplane

Post - Aug 22, 1934

William K. Vanderbilt's palatial yacht, Alva, with the owner in command and carrying as passengers his wife, son and daughter, arrived in Boston harbor yesterday, coming up from Provincetown, and docked at pier 2, East Boston. The yacht, one of the most palatial ever seen here, and resembling a miniature ocean liner, has been cruising through Long Island Sound on the way to Maine. Her call here was to take aboard some new water-cooling apparatus for her engine room and to pick up a seaplane that is being flown from California, to arrive today. The plane, it is expected, will drop into the water near the East Boston piers, taxi alongside, and then be hoisted aboard to a special cradle on the after deck.

The Alva, built at Kiel, Germany, in 1931, cost $1,000,000 to build, and the owner had to pay Uncle Sam another $300,000 as duty on the craft. She is manned by a crew of 42, more than some steamers carry, has many luxuriously furnished cabins, and is equipped with every known device for the safety and comfort of those on board. Probably the newest and most important of these is the so-called fog camera, which represents the newest attempt of man to conquer the ancient enemy of the mariner.

This machine, as yet not tested, is capable of photographing fog so that for a distance of at least 2000 feet ahead, the navigator on the bridge can see what lies in his path.

Our outstanding visitor today was Mr. William K. Vanderbuilt of New York, who arrived in Boston this morning. Mr. Vanderbuilt had luncheon at noon.

Occasionally this morning it appeared as if the clouds would break and perhaps the sun might appear but this thought was soon discouraged with heavier rain shortly after noon.

The newspaper clipping from the Boston Globe is interesting to us because Dr. Etz is one of the Universalist Ministers who has been a member of the Wayside Inn Group for many years, attending their Retreat here every January.

Dr. Etz has been a guest

DR ETZ RETURNING FROM WORLD TRIP

To Report in Boston on Universalist Missions

Announcement is made by the Universalist headquarters at 16 Beacon st, that Rev Dr Roger F. Etz, general superintendent of Universalist Churches, who has been making a trip around the world as "good-will ambassador" to Universalist Churches and their mission stations, will return to Boston early in September and will be tendered a formal reception and dinner.

REV DR ROGER F. ETZ
General Superintendent of Universal Churches

At that time he will report on his trip and possibly make recommendations which may cause a drastic change in the Universalist missionary policies.

Dr Etz left Boston on May 1 with an itinerary which took him completely around the world and into many side trips, on which he was to contact not only Universalist Churches and mission stations, but other Christian liberals. The purpose of the trip was stated to be "to make a thorough and impartial survey of what the church is doing over seas." His formal recommendations on his return will be made to the board of trustees of the Universalist general convention.

The tentative date for the reception and dinner to Dr Etz has been set as Wednesday, Sept 19, although this is subject to change. Universalist leaders all along the Atlantic Coast and from the Middle West are being invited to be present. It is under the direction of a committee headed by Victor A. Friend of Melrose, president of the Universalist convention.

The committee also includes Rev Dr Leroy W. Coons, superintendent of Massachusetts Universalist Churches, with Rev C. H. Emmons, C. B. Ladd and A. Ingham Bicknell, representing the general convention; Rev Dr John van Schaick, editor of the Universalist Publishing House; Miss Susan M. Andrews, executive director of the General Sunday School Association; Mrs D. L. Taylor, secretary of the Woman's National Missionary Association; D. S. Rawson, president of the General Young People's Christian Union; Rev L. G. Williams, president of the Universalist Ministers' Association; Rev Seth R. Brooks of Malden, chairman of the international church extension board; Ambrose Warren, president of the Universalist Club of Boston, and, ex-officio, the superintendents and other officials of niversalist Churches in a number of other States.

Following his return, Dr Etz will spend the next few months visiting niversalist Churches in this country, acquainting them with the situation as he found it in the mission field. It is probable that the future international policy of the Universalist Church will revolve around the report and recommendations which he will make.

NOTED ORCHESTRA LEADER ARRIVES

A. B. Pease, New England Ford manager (right), greets Fred Waring, leader of the Pennsylvanians, who broadcast the Ford message weekly, when the famous orchestra leader arrived here yesterday. Waring will conduct his Ford dealers hour at 9:30 P. M. tomorrow at the Hotel Statler.

FRED WARING GREETED ON HIS ARRIVAL HERE

Representative of Gov. Ely Among Many at South Station

Twenty-five Ford car dealers and executives, a representative of Gov. Ely, a squad of press agents, the press and 500 fans welcomed Fred Waring and his Pennsylvanians to Boston in South station yesterday morning. Outside on Summer street a fleet of 30 corn-yellow Ford cars was mobilized behind a quartet of trim Boston motorcycle police to escort the orchestra to the mayor's office for the Hub's official greeting.

Fred Waring, dapper, keen-eyed musician who made big business of a dance orchestra, is the leading attraction at the Metropolitan Theatre beginning yesterday Tomorrow night he will conduct his regular 9:30 o'clock broadcast, the Ford Dealers' hour, from the Hotel Statler, before an actual audience of 1000.

A luncheon will be given him at 11 o'clock by Ford dealers of the vicinity. Among welcomers at South station yesterday were A. B. Pease, New England Ford manager, E. W. Gellatly, sales promotion manager, and Representative Samuel Eisenstadt, representing Gov. Ely.

Pleasant

Now that schools and colleges in and around Boston have opened and are opening in the near future, we are expecting a busy season especially week ends before and after football games.

Being so near to St. Mark's School in Southboro makes the Inn a very desirable dining place for the students and friends.

Pleasant

The most interesting event so far this week was the arrival of a gentleman from Seattle, Washington in a 1923 Ford. He purchased the car for 25.00 and called it "worn out" but has driven 30,000 miles since then. From the roof of the car was hung souvenirs of different places he had been.

The Stilphen Motor Company of Dorchester had 32 tea guests here today. The ladies were members of the Ladies' Aid, Methodist Episcopal Church, Dorchester.

Pleasant

The Quincy Motor Company of Quincy, Massachusetts made their first "tea" visit today bringing twenty three members of Delphi Temple #59 Pythean Sisters, Weymouth, Mass. as their guests. We are having many Ford dealers advertising in this way.

Eighty six men and women attending the Convention of the International Association of Industrial Accident Boards and Commissions had dinner at the Inn tonight. What an interesting arrival of the group in nineteen Ford V8 cars furnished by Boston dealers.

Pres. J. A. Parks, Boston, was in charge,
47 states were represented.

Overcast.

A lobster banquet was served this evening to 115 members attending the 20th annual meeting of the International Association of Government Labor Officials. Headquarters are at the Statler Hotel, Boston from September 27 to 29, 1934.

During the dinner piano and violin music was furnished by Miss Dickerson and Miss de Mille. Songs were sung by Miss Fisher and Mr. Howe. Later in the evening all joined in community singing led by Mr. Howe who helped greatly both with his voice and spirited manner.

Heavy rain.

A most interesting day in spite of rain!

Our first group was thirty pupils from Malvern Road School brought here by G. Milton Fisher of Worcester who is our most frequent visitor with school groups.

Fifty members, the staff of the Boston Y.W.C.A., had luncheon at noon. It was a "welcome home" party to their Secretary who has been abroad for about three months.

Our third group came for luncheon at one thirty. This

Sept 29, 1931 Continued.

Was a reunion of the Boston Normal School and Teachers College class of 1909.

There were 25 classmates together again. It was a splendid reunion and all agreed it to be their best in years.

Miss Margaret Beatley of Boston as President of the class alumni made all arrangements.

We are looking forward to another reunion here, perhaps in 1935.

Overcast and Clearing

Today seems to have ended a very busy week!

Summary of meals served

Mon.	9/24/34	143	
Tues.	9/25/34	91	
Wed.	9/26/34	125	
Thurs.	9/27/34	216	
Fri.	9/28/34	215	
Sat.	9/29/34	157	
Sun.	9/30/34	156	Total 1083

The time is approaching very rapidly when our Old Kitchen dinners become popular.

We sense it even more tonight because of the change of time from "Daylight Back to Standard." Evenings are much darker at six o'clock.
